

EM-6001-2 | Antenna Kit

Description

Electro-Metrics EM-6001-2 antenna kit consists of Omni-Directional and Directional antennas covering the frequency range of 1 kHz to 40 GHz. All antennas and accessories are placed in one carrying case, which is provided. The standard kit consists of six antennas, tripod, cables and accessories. A number of optional accessories are also available. The unique feature of the kit is that both standard and optional items are designed to fit in one standard size carrying case for easy transport.

Specifications

Electrical

- 1 EM-6851 Omni-Directional Wideband Antenna
2 GHz–18 GHz
- 1 EM-6104-1 Omni-Directional Wideband
Discone Antenna 20 MHz-18 GHz
- 1 EM-6939 Log Periodic Antenna, .8-20 GHz
- 1 EM-6869 Loop Antenna, 9 kHz–50 MHz
- 1 EM-6905 Rod Antenna, 1 kHz–200 MHz
- 1 EM-6898 Right Angle Whip
- 1 EM-6089-1 Battery Power Supply
- 1 EM-6083-1 Charger with Power Cord
- 1 EM-6134 Tripod
- 2 EM-1316 20 Ft. SMA Male to SMA Male
- 2 PE-9081 SMA Female to N Male Adapter
- 2 PE-9082 SMA Male to N Female Adapter
- 1 EM-1530 Carrying Case (Pelican)

Ref: 180329

EM-6001-2 | Antenna Kit**Options to the EM-6001 Antenna Kit**

- 1 EM-6087 12/15 Volt External DC Supply
- 1 EM-6903 24" BNC Right Angle Rod
- 1 EM-6987 Current Probe 1 kHz-110 MHz
- 1 EM-6142 Looped Test Power Cord
- 1 EM-6963 18-40 GHz Horn
- 1 EM-1317 10 foot k-male to k-male cable
- 1 EM-6993 Probe, 6 cm Loop
- 1 EM-6994 Probe, 3 cm Loop
- 1 EM-6995 Probe, 3 cm Loop
- 1 EM-6996 Probe, 3.2 cm Ball "E"
- 1 EM-6997 Probe, E Field Stub
- 1 X-H141 Probe Extension
